MEMORANDUM FOR: Chief, Materiel Division, Office of Special Activities SUBJECT: OXCART Forward Staging Bases i. I am somewhat concerned lest our planning and actions associated with pre- and post-strike staging at Eleison and KC-135 staging and A-12 emergency recovery at Eadens, may not be accomplished within the time limitations dictated by projected operational readiness. I am particularly concerned with the requirement to prepare Eleison as a gre- and post-strike staging base and the actions necessary to complete necessary construction and pre-positioning of equipment necessary in support the A-12. 2. With these thoughts in mind, I am assigning primary responsibility for all actions necessary to ready these bases to the Materiel Division. Early during the week of 17 March 1963, I would like for myself and appropriate OSA staff members a briefing on the status of this entire topic. You should feel free to levy any requirements in this connection upon other OSA elements.	
MEMORANDUM FOR: Chief, Materiel Division, Office of Special Activities SUBJECT: OXCART Forward Staging Bases i. I am somewhat concerned lest our planning and actions associated with pre- and post-strike staging at Elekson and KC-135 staging and A-12 emergency recovery at Kadens, may not be accomplished within the time limitations dictated by projected operational readiness. I am particularly concerned with the requirement to prepare Elekson as a gree- and post-strike staging base and the actions necessary to complete necessary construction and pre-positioning of equipment necessary to support the A-12. 2.
